TONOPAH DAILY BONANZA

Today's Silver
Quotation, 52

VOL. X. NO. 99

TONOPAH, NEVADA, FRIDAY EVENING, AUGUST 18, 1911.

PRICE 10 CENTS.

TONOPAH EAGLES WILL ADVERTISE CAMP IN 'FRISCO

LARGE DELEGATION WILL PRO-
CLAIM WHAT WE ARE PRO-
DUCING IN METALS.

Tonopah Eagles will be well represented at San Francisco for the big convention which is to be held in that city. It is figured that there will be at least 40 from this city in the big parade, and this delegation will be headed by Sheriff Malley. Two big streamers have been prepared by "Dad" Jones which will serve to advertise the city. On these streamers appear the words: "E. O. E., 271, Tonopah, Nevada. The greatest mining camp in the world. Monthly output in gold and silver \$460,000. Monthly payroll \$272,000."

These streamers will be attached to big automobile trucks and used to advertise the camp. The output of Tonopah monthly is over \$800,000 and the net profits are about the sum proclaimed by the banners.

RAILROAD WRECK AT BRIDGEPORT CONNECTICUT

PICTURE SHOWING THE GREAT
TRAIN WRECK WILL BE
ON AT BUTLER.

At the Butler theater today we will show four reels of pictures and will also show four reels on Saturday and Sunday. Commencing next Thursday we will have as a special attraction a troupe of trained monkeys, considered the best on the vaudeville stage today. Our pictures today are: "That City Feller," a Selig comedy drama of country and city life; "An Accidental Outlaw," a Lubin Western story; "Fickle France," a Pathe story; "Railroad Wreck at Bridgeport, Conn.," Pathe scenic, and by special request we will show again that great comedy picture "A Gay Time at Atlantic City." Don't forget we will show four reels of pictures today, Saturday and Sunday.

WORLD'S RECORD BROKEN.

A Butte hammer and drill team broke the world's record for drilling into solid granite in the national contest at Hancock, Mich., penetrating 59.25 inches in 15 minutes and winning a prize of \$1000 offered by John D. Ryan, president of the Anaconda Copper company, according to the Mining Science. The previous world's record was 56 inches, made by the Butte a year ago. The Butte team is composed of John W. McCormick, W. J. MacLain and Michael Kinsella. They averaged 98 strokes of the hammer per minute.

DEEPER WORKING IN TRAMPS

Pete J. Vulch, P. O. Vucurrevich and M. Gurich are making fine progress in the winze they are sinking in the Eclipse ground of the Tramps estate. From the level of the lower Tramps tunnel they are now down about 35 feet, with the value of the pannings gradually increasing, and the gold bearing rock steadily widening.

They are greatly encouraged but are not inclined to do any lateral work until after they have sunk 100 feet, unless, of course, they should cut into high grade, which is possible at any time.—Rhyolite Herald.

STANDARD OIL SETTLES SUIT.

WASHINGTON, Aug. 18.—A check for \$42,395.63 was received yesterday by the department of justice from the Standard Oil company. This sum represented the costs in the dissolution suit brought by the government under the Sherman anti-trust law.

All kinds of ruling and binding

SWINDLERS ARE FOUND GUILTY AND FINES IMPOSED

WINNEMUCCA, Aug. 18.—The case of the Western Pacific operators, J. B. Ellinger and M. B. McMullan, on the charge of obtaining money under false pretenses, was concluded in Justice Dunn's court on Monday afternoon and yesterday morning he gave his decision, finding both men guilty.

Justice Dunn fined Ellinger \$200, with the alternative of serving 100 days in the county jail. McMullan was fined \$100 or 50 days in jail. The latter paid his fine and was discharged, but Ellinger is still in jail.

A number of witnesses testified at the trial of Ellinger and McMullan, the evidence showing conclusively that the defendants were guilty as charged. Their victim was a ranch hand named Martin Walter, whom they swindled out of \$25 by making a charge against him of robbing the Western Pacific telegraph office, afterwards having the charge against him dismissed in consideration of Walters giving them the money.

FRIENDS VISIT POPE PIUS

POPE'S CONDITION IMPROVES;
HE IS ABLE TO WALK
ACROSS THE ROOM.

ROME, Aug. 18.—Pope Pius, whose condition shows marked improvement over last week, sat up nearly all day. His Holiness even ventured to walk from his arm chair to his writing desk to get some papers required while discussing official matters with Cardinal Merry del Val, papal secretary of state.

During the day the pontiff received a number of friends, his physicians believing that a chat with them might brighten the spirits of the patient.

His Holiness was not informed of the sudden death of Cardinal Moran in Sydney, N. S. W., yesterday. It was feared that the shock might have a detrimental effect on the pontiff's health, as he held Cardinal Moran in high esteem.

AUTOMOBILE SPEED BURNERS WILL HAVE TO SLOW DOWN

This morning, about train-time, an automobile belonging to a prominent mine operator and driven by a man in his employ, was sent down Main street at top speed, striking a dog in front of the Mizpah hotel and causing people on the street to stop and stare. The owner of the machine was notified by the police and he has promised to see that this speeding will not occur again. Complaint was made last evening about the same party narrowly missing running over a pedestrian and the officers are going to bring the next offender before the bar of justice.

BIRTHDAY PARTY.

Mrs. M. J. O'Flaherty gave a party at her neat little cottage on University street yesterday afternoon. The celebration was in honor of her son William's 7th birthday. A dozen of the little boy's friends were present and all had a merry time. A table full of dainties were served and done full justice to by those present.

YOEMAN LODGE PROSPERING.

The Yoeman lodge met Wednesday evening at the home of W. C. Mitchell on Belmont avenue and elected William H. Smith as foreman. The lodge has now over 50 beneficiary members, and Mr. John Martin, L. J. Schweizer, H. Murphy were appointed to select a hall in which to hold future meetings.

ADMIRAL TOGO ILL.

BOSTON, Mass., Aug. 18.—An attack of acute indigestion, declared not to be serious, caused a cancellation of the entertainment in honor of Admiral Togo.

LABOR TROUBLES In England May Result IN A CIVIL WAR

Government Promises Help of Army
to Prevent Further Tie-Ups---25,-
000 Men Now Ready for Ac-
tion in Aldershot Garrison.

LONDON, Aug. 18.—An industrial war has been declared, and employees on all railway lines in the United Kingdom will be called out at once.

All day long conferences have been held at the board of trade, which have proved fruitless. Representatives of the unions are immovable in the stand that the managers of the railroads had broken its letter and violated in spirit the conciliation agreement.

The offer of Premier Asquith to appoint immediately a royal commission to investigate and report what amendments are desirable for the conciliation plan was rejected by the union representatives. Though the railway managers have consented, leaders of the Amalgamated Society of Railroad Servants last evening sent telegrams throughout the country calling on the men to cease work.

Military maneuvers have been suspended everywhere and troops are speeding to the strike centers. A whole brigade with machine guns has returned to London and the

city is preparing for large encampments.

It is asserted here that unless matters are arranged a cessation of work in the whole transport trade of the United Kingdom will be ordered next Tuesday. It is estimated that 600,000 men will obey the order.

A large number of meetings to attempt settlement of the troubles between the railroads and workers were held last night, but at adjournment the situation remained unchanged. The managers declared they had been promised protection for trains and would not yield to the men Union leaders, on the other hand, declared a general strike will occur. The military authorities are taking every precaution to secure the operation of trains when the strike is called. Every soldier in the Aldershot garrison is under orders for duty to move at a moment's notice. It is estimated that 25,000 men can be moved from Aldershot in a few hours. All are now armed with rifles and carbines.

FUNERAL OF MRS. L. L. YOUNT HELD THIS AFTERNOON

The funeral of Mrs. L. L. Yount took place this afternoon at 4 o'clock. The services were held at Pythian hall and were under the auspices of Argenta Temple, No. 12, Pythian Sisters, Rev. Dexter of the Methodist church of Goldfield officiating.

At the grave the beautiful rites of the Pythian Sisters were heard. Many friends paid their last respects to the departed and extended their sympathy to the husband and daughter who survive her.

QUAKE IS RECORDED FROM LONG DISTANCE

SAN JOSE, Cal., Aug. 18.—Father Ricard, in charge of the observatory at Santa Clara college, reported last night that a long distance quake was registered today from 3 to 5 o'clock p. m. The form of the record is a sinusoid of small amplitude and 12 seconds period. The direction of the movement was 36 degrees 55 minutes from east to south, and the epicenter was 1379 miles.

POPE SHOWING GREAT IMPROVEMENTS DAILY

ROME, Aug. 18.—The condition of the Pope is much better. His strength has increased, and his temperature remains at 98.9 degrees. He took a few steps about his bedroom yesterday without feeling worse because of the exertion. His gouty knee is less swollen and the pain is diminishing.

TERRIFIC WINDSTORM.

PHOENIX, Ariz., Aug. 18.—A windstorm and cloudburst at 5 o'clock yesterday demolished the Commercial hotel and several other buildings at Winkelman, N. M., the eastern terminus of the Arizona Eastern railroad, about 100 miles east of this city. One woman was injured.

POISON KILLS DOVES.

BAKERSFIELD, Cal., Aug. 18.—It became known yesterday that thousands of doves have been poisoned by wheat left out to kill squirrels in a crusade to stamp out the cause of the bubonic infection, by the state health authorities. Several horses were also killed.

TOMANOVICH TRIAL STARTED THIS MORNING

Jack Tomanovich was placed on trial this morning in the district court charged with assault with intent to kill upon one Bangevich. The day has been taken up in selecting a jury and as we go to press the jury has been selected.

SPAULDING APPEALS FOR PROTECTION ON REPUTATION

F. J. Spaulding, proprietor of the Phoenix lodging house, got in a mix-up with two of his neighbors today. Spaulding threw a beer bottle at one of the enemy and broke the panel of a door. The parties were called and the proprietor of the Phoenix made accusation, that the other parties in the trouble were favored by the police and that he had ought to have protection on account of his poor good reputation and the fact that he was paying taxes, licenses, etc. Witnesses denied that any threat had been made against Spaulding, as he alleged, and everything is now quiet in the neighborhood.

ANOTHER ARREST FOR SELLING THE INDIANS LIQUOR

EDWARD MAYFIELD OF MAN-
HATTAN WILL APPEAR BE-
FORE GRAND JURY.

Edward Mayfield of Manhattan was brought in from that camp this morning by Constable Santos and lodged in the county jail. Mayfield is a cook by occupation and is charged with selling liquor to Indians and was bound over by the Manhattan justice court to the grand jury.

It is claimed that Constable Santos caught Mayfield while disposing of the liquor and that there is a strong case against him. Considerable trouble has been caused in Nye county recently by Indians procuring liquor, and the officials over the county are making an effort to stamp out this traffic.

S. W. STEFFNER HAS NOTHING BUT PRAISE FOR MANHATTAN

S. W. Steffner, a mining and mill man of Manhattan, is in Tonopah today on business. Mr. Steffner is interested in leasing on the Consolidated estate of that camp and is loud in his praise of the whole district. Tom Kendall has struck good ore on his lease on the Consolidated and two other leasers on this estate are in pay ore. Leasers are taking out more ore at present than the mills in the camp can handle and Manhattanites are in hopes that the Priest mill will get out of the meshes of the law and start running.

PET PIG KILLS HUGE SHARK.

PROVIDENCE, Aug. 18.—Captain Fred S. Babbitt of the four-masted schooner Marguerite, arrived this morning from Norfolk with a cargo of coal and a brand new sea tale. Dennis, the Marguerite's pet pig, had a one-round "go" with a seven-foot shark off Fire Island. This occurred on the deck after the shark had been harpooned by the captain. The outcome was satisfactory to the crew, for the pig promptly dispatched the shark.

CREAMERY TALK.

Parties are investigating the Yerington section with an idea of placing a creamery and cheese factory at that point. At the present time there is a creamery operating near Yerington. It is proposed to amalgamate the two, one to operate in the lower end of the valley and the other near Yerington. Carson valley grew rich from its creamery products, and there is no reason under the sun for a failure of such enterprises in a large and prosperous valley like that of Mason.

GOOD SCORES ARE MADE BY RIFLE MEN

REMARKABLE SHOOTING IS BE-
ING DONE AT ANNUAL CON-
TEST HELD IN OHIO.

CAMP PERRY, Ohio, Aug. 17.—In the National Rifle association's Hale contest at 800 yards, the record was broken by Captain Robert H. Allen of the Twenty-first United States Infantry, who scored 21 bullseyes. Probable scores were also made by Lieutenant M. G. Seeley of Arizona and Lieutenant F. E. Oberholzer of the Fifth Infantry. The Evans skirmish match was finished yesterday afternoon, the United States Infantry team winning easily over Alabama.

BLOODED HORSE DIES.

HAMILTON, Ont., Aug. 18.—In the North American steeplechase races here yesterday, Red Wine, a thoroughbred, one of the starters, fell and broke its neck. The jockey was unhurt.

GOLD MOUNTAIN MINES ACTIVE

DEVELOPMENT BRINGING GOOD
RESULTS—BONNIE CLARE
MILL HUNG UP.

James J. Wilson, manager of the Royal Flush group, is up from Gold Mountain, and reports everything looking very good on that property. The shaft is being sunk from the 140 to the 240-foot level, and is now down about 220 feet. The rock has been very hard, costing about \$60 per foot for sinking. A change for the better has appeared during the last few rounds of shots, and better progress is expected from now on. The rock in the bottom of the shaft is highly mineralized, indicating proximity to a good body of ore.

On the 140-foot level a good showing of ore has been opened, and a new streak of ore was exposed a few days ago by the hanging wall of a winze from the 90-foot level shuffling off and disclosing about two feet of iron and copper sulphides that assay \$50 per ton, the principal values being gold.

Faulkner and Seaman are loading a car of lead carbonate ore from a property they are developing on Gold Mountain Peak ridge. The ore carries good shipping values and will be consigned to the Western Ore Purchasing company at Goldfield.

The Bonnie Clare mill is still hung up on account of trouble with the slime pumps and other portions of the equipment, and it is not known when operations can be resumed. It will evidently require considerable overhauling to get things in proper shape for successful operations, but the company has announced its intention of proceeding to do this without delay.

Development is being pushed on a number of properties in various parts of the district, and some excellent showings of ore are being disclosed.—Tribune.
